

IRRIGATION 2024

The irrigation system is currently working without issue. For any concerns, please contact info@panoramicheightshoa.com or reach out to our Water Master John Crosby.

WATER CONSERVATION

UPDATE 7/9/2024:

According to our Watermaster, KID has authorized us to operate your irrigation system twice daily on your scheduled days (view schedule link below).

As of **July 1, 2024, the [Kennewick Irrigation District](#) is asking that all areas start voluntary conservation of irrigation water. Please refer to the [watering schedule by clicking here](#),**

Also, please feel free to visit the [Kennewick Irrigation District](#) for more information about irrigation water to our neighborhood. They are a good resource for outages and irrigation delivery in general.

Thank you!
